15781 - TAIL HAS DARK MID-VENTRAL STREAM

15789 - THERE IS SOME DOUBT AS TO WHETHER OR NOT THIS FLEA BELONGS TO
EUDROMICIA. IT WAS TAKEN FROM THIS SPECIMEN; HOWEVER, RATTUS
NIOBE AND ANISOMYS WERE ALSO ON THE TABLE. FLEAS FROM BOTH OF THESE
SPECIES WERE COLLECTED, SO IT MAY BE POSSIBLE TO CROSS CHECK.

16279 MY BIG EXCITEMENT OF THE DAY CAME WHEN THE YOUNG CHIMBU, WHO TAKES CARE OF THE PIGS, CAME UP WITH A SMALL BAT WHICH HE FOUND IN A CREVICE BETWEEN THE WOODEN CEILING AND TIN ROOF OF THE "BOY HOUSE". IT HAS THE TRICOLOR FUR OF PHONISCUS BUT NOT THE GOLDEN HAIRS. NOSTRILS OPEN Laterally FROM LITTLE TUBES ON NOSE; WING MEMBRANES PALE BROWN. THIS COULD BE MURINA - NOT KNOWN FROM NEW GUINEA.

1. The first part of the report deals with the general situation of the country. It is a very interesting and informative study of the country's development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's development.

2. The second part of the report deals with the economic situation of the country. It is a very interesting and informative study of the country's economic development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's economic development.

3. The third part of the report deals with the social situation of the country. It is a very interesting and informative study of the country's social development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's social development.

4. The fourth part of the report deals with the political situation of the country. It is a very interesting and informative study of the country's political development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's political development.

5. The fifth part of the report deals with the cultural situation of the country. It is a very interesting and informative study of the country's cultural development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's cultural development.

6. The sixth part of the report deals with the environmental situation of the country. It is a very interesting and informative study of the country's environmental development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's environmental development.

7. The seventh part of the report deals with the international situation of the country. It is a very interesting and informative study of the country's international development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's international development.

8. The eighth part of the report deals with the future of the country. It is a very interesting and informative study of the country's future development. The author has done a great deal of research and has gathered a wealth of material. The report is well written and is easy to read. It is a valuable contribution to the study of the country's future development.
